CERTIFICATION COURSE

MERN FULL STACK WEB DEVELOPMENT

Dev Town Institution

https://cert.devtown.in/verify/ZMaFKb

Developed to built dynamic web app by creating Frontend UI and integrating REST API

META (couresra)

Frontend Development

https://www.coursera.org/account/ accomplishments/certificate/DG2H3DRGPEHA

I Acquired to create interactive user interfaces that provide an exceptional user experience. This involves implementing designs using HTML, CSS, and JavaScript to ensure the frontend components and responsiveness from META

WORK EXPERIENCE

C1X ADTECH PRIVATE LIMITED (INTERN)

12/2021-04/2022

- As a UI Designer, I led the successful creation of a responsive and user-friendly UI design for an admin dashboard, which was instrumental in enhancing user experience and increasing organizational efficiency. With my expertise in user-centered design, I designed intuitive navigation menus, interactive data visualization elements, and a modular design system that ensured easy customization and scalability.

- Tools used :   Figma

MY PROJECTS

Restaurant StaticWebsite

Full Landing Static Responsive website using HTML CSS and JS, with hamburger menu along with Responsive design

https://kovendan16.github.io/hotel3/

File Share

I have developed dynamic and user-friendly features that enable seamless file sending and downloading using HTML, CSS, and EJS for the UI, with Express.js and MongoDB for the backend.

https://ftp-c9j9.onrender.com/

BLOG REST API

Full stack Dynamic website using MERN stack (mongodb,express js react and node), with login authentication

https://github.com/kovendan16/blog-rest-api

RealTime Chat application API (On processing)

I have created a WebSocket based application using Node.js, Express.js, and incorporating private and group chat, live notifications, and JWT authentication to deliver secure and real-time communication experiences.
